Pune, Maharashtra | prasadadsul81@gmail.com | +91- 8668524307 | LinkedIn | GitHub

## SUMMARY

Software Engineer with 3+ years of experience developing scalable backend applications and REST APIs using **C#, ASP.NET Core, .NET, Entity Framework, and SQL Server**, with hands-on experience building and integrating AI/GenAI solutions. Experienced in Generative **AI, LLMs, NLP, prompt engineering, vector-based retrieval, AI-powered automation, and cloud-based backend workflows using Python, FastAPI, AWS, and Docker**. Strong focus on developing production-oriented, scalable, and maintainable software solutions.

## TECHNICAL SKILLS

- **Languages: C#, Python, SQL, JavaScript**
- **.NET & Backend: .NET, ASP.NET Core Web API, Entity Framework Core, ADO.NET, WPF, MVVM, .NET MAUI, Node.js, FastAPI, Microservices**
- **AI & Generative AI: Generative AI, Large Language Models, OpenAI, Anthropic, Mistral, NLP, Prompt Engineering, Llama3, Vector Search, Retrieval-Based Systems, AI Automation**
- **AI/ML Frameworks & Tools: TensorFlow, Scikit-learn, LangChain**
- **API & Integration: REST APIs, API Integration, JSON, XML, HTTP, Authentication**
- **Databases: SQL Server, PostgreSQL, Neo4j, OpenSearch, Vector Databases**
- **Architecture & Engineering: Clean Architecture, SOLID Principles, Performance Optimization, Debugging, Scalable Backend Systems, Agile Development, KISS Principle, Code Reviews**
- **Security & Development Lifecycle: Secure SDLC, OWASP, Agile Development**
- **Cloud & DevOps: Azure DevOps, AWS, Docker, Git, CI/CD**
- **Testing: Unit Testing, Integration Testing, NUnit/MSTest**
- **Frontend: JavaScript, Angular, HTML, CSS**

## PROFESSIONAL EXPERIENCE

### Software Engineer - Centralogic India Pvt Ltd, Pune (Jan 2024 – Jul 2026)

- Developed scalable backend services, REST APIs using **ASP.NET Core, C#, .NET**, for enterprise applications.
- Optimized API performance, SQL operations, and backend logic, improving processing efficiency by 20%.
- Implemented **clean architecture** to improve **backend maintainability and application performance**.
- Developed containerized applications with **Docker and CI/CD workflows** for better deployment reliability.
- Enhanced API integrations, debugging, production deployments to improve application stability, reliability.
- Collaborated with developers, QA, and cross-functional teams to troubleshoot defects, validate API functionality, and deliver reliable production ready applications.
- Integrated **AI/LLM capabilities** and **automation workflows** into enterprise applications, supporting intelligent processing and application-level automation.

**Technologies: ASP.NET Core, .NET, C#, Python, REST APIs, Entity Framework, SQL, AWS, Docker, Node.js, Git**

### Software Engineer Trainee - Centralogic India Pvt Ltd, Pune (Jul 2023 – Dec 2023)

- Completed a 180-day training and internship program focused on software technologies.
- Completed assessments as part of the internship and technical training program

**Technologies: C#, .NET, ASP.NET Core, REST APIs, Entity Framework, SQL Server, Git**

## PROJECTS

O Medical Visa - Full-Stack Developer (Sept 2025 – Jul 2026)

Enterprise healthcare platform supporting visa issuance workflows through scalable REST APIs, modular backend architecture, database integration, and Angular-based application components.

- Developed backend services and REST APIs using **ASP.NET Core, C#, .NET, and Entity Framework**, following Clean Architecture principles.
- Developed and optimized API workflows and SQL operations to improve **application scalability, maintainability, and performance**.

**Tech Stack: ASP.NET Core | C# | Entity Framework | SQL Server | REST APIs | Angular | TypeScript | HTML | CSS | Clean Architecture | Git**

Task Tracking POC - AI/ML Engineer (Mar 2025 – Jun 2025)

AI-driven resource and task management solution leveraging Knowledge Graphs and Generative AI to support intelligent employee allocation and project planning.

- Designed a **Neo4j Knowledge Graph** to model employees, skills, projects, and task relationships, enabling intelligent resource allocation through graph-based querying.
- Integrated **Generative AI workflows with backend services** to provide context-aware recommendations and decision support.
- Developed backend workflows for processing project, employee, and task relationships to support intelligent resource planning.

**Tech Stack: Python | Neo4j | Knowledge Graph | GenAI | REST APIs | GraphCypher | OpenSearch**

Agent Support Bot - Backend & AI Engineer (Jun 2025 – Sept 2025)

Enterprise AI-powered customer support solution using LLM-based conversational workflows and retrieval-driven (RAG) backend services.

- Developed an AI-powered support assistant using **Python, FastAPI, Llama 3,** Retrieval-Augmented Generation (RAG) using vector-based retrieval**, and REST APIs** for context-aware query resolution.
- Built backend workflows for **classification, response generation, retrieval, and AI-service integration** with enterprise support systems.
- Integrated retrieval-based context into LLM workflows to improve response relevance and support domain-specific query handling.

**Tech Stack: Python | FastAPI | Llama 3 | Vector Database | NLP | REST APIs**

Document OCR-AI - Backend & AI Engineer (Jan 2024 – Mar 2025)

AI-powered document intelligence platform for extracting structured information from unstructured documents using OCR and NLP.

- Developed AI-enabled document processing pipelines using **Python, Node.js, OCR, and NLP along with HuggingFace Transformers** to automate structured information extraction.
- Designed REST APIs and cloud-integrated backend workflows using **AWS** to support scalable document ingestion, processing, and enterprise automation.

**Tech Stack: Python | Node.js | JavaScript | OCR | NLP | AWS | REST APIs | SQL Server**

## EDUCATION

Master of Science in Computer Science

Savitribai Phule Pune University | June 2022 - May 2024

Bachelor of Science in Computer Science

Savitribai Phule Pune University | June 2019 - May 2022

## CERTIFICATIONS

- LinkedIn DevOps Professional Certificate – LinkedIn Learning, Jul 2022
- Google Data Analytics Professional – Google, Jan 2023
